| Fr | Flight | Lilongwe - Johannesburg on SAA | |

Bush and beach combo within the cradle of the African Rift Valley.

The Lake Malawi National Park is a World Heritage Site and the first freshwater marine reserve on earth. It's jewel - Mumbo Island – offers barefoot luxury in a camp that is both comfortable yet rustic. The island is located within an exclusive concession area, guaranteeing privacy in paradise.

Surrounding the island are warm, fresh waters with a massive jumbles of underwater boulders and myriad tropical fish, creating a magical swimming pool and the opportunity to try sea kayaking, snorkeling and SCUBA diving in a beautiful and friendly environment.

Mvuu Camp is situated on the banks of the Shire River in the Liwonde National Park, Malawi's premier wildlife reserve. Mvuu offers game drives, boat trips on the Shire River (boasting Africa's densest hippo and crocodile population), an incredible floral diversity, and some of the best bird watching in Southern Africa (record of 266 species in two days).

Mumbo Island and Mvuu Camp are members of the Wilderness Safaris portfolio.
